SITARAM KESHARI MAHAPATRA

Software Developer | Angular | React | JavaScript | TypeScript
Rumango Software And Consulting Services Pvt Ltd.
Email : sitaramkesharim@gmail.com | **PhoneNumber** : 7008688366
LinkedIn : https://www.linkedin.com/in/sitaram-keshari-mahapatra

PROFESSIONAL SUMMARY:

Software Developer with 3+ years of experience specializing in building scalable, high-performing web applications using Angular, React, Redux, TypeScript, and JavaScript. Strong proficiency in UI/UX optimization, responsive design, and RESTful API integration. Experienced in CI/CD pipelines, version control (Git), and collaborating with cross-functional teams in Agile environments. Familiar with DevOps practices and cloud platforms like AWS.

SKILLS AND TECHNOLOGIES:

- **Languages & Styling**: JavaScript, TypeScript, HTML, CSS, SASS, SCSS
- **Frontend Frameworks**: React, Redux, Angular, AngularJS, Bootstrap, Tailwind
- **Backend & APIs**: HTTP, RESTful APIs, JSON, AJAX
- **Version Control**: Git, GitHub, Bitbucket
- **DevOps & Cloud**: AWS (basic), Jenkins, CI/CD, Postman
- **Testing**: TDD, BDD, Unit Testing, Jest, React Testing Library
- **Project Management**: Jira, ClickUp
- **Design & Prototyping**: Figma, Adobe, Sketch
- **Methodologies**: Agile, Scrum, Waterfall
- **Other**: Responsive Design, CSS Grid, SASS, JWT Authentication, OAuth, RBAC, Accessibility Standards, CI/CD Practices

PROFESSIONAL EXPERIENCE:

Associate Software Developer - (Aug 2021 – Sept 2024)

- **Software Development:** Hands-on experience in coding, UI/UX optimization, and performance enhancements, achieving a 30% improvement in UI performance.
- **Web Application Expertise:** Built scalable and robust web applications, staying aligned with evolving industry trends and best practices.
- **Project Management:** Led project planning and execution with cross-functional teams including UI/UX, QA, and product management to ensure timely and quality delivery.
- **Distributed Systems Design:** Applied expertise in system scalability, cloud integration, and cost-effective architecture solutions.
- **Team Leadership:** Mentored junior developers, promoted code quality, and fostered a collaborative and productive team environment.
- **Code Review & Best Practices:** Enforced clean code practices, conducted thorough reviews, and ensured security through JWT authentication and RBAC implementation.
- **Version Control & Collaboration:** Proficient in using Git and GitHub for version control, branch management, code reviews, and team collaboration in Agile environments.
- **Quality Assurance & Continuous Improvement:** Improved system performance by 15% through continuous testing, monitoring, and process optimization.
- **Stakeholder Collaboration:** Actively engaged with stakeholders to align development efforts with business goals and communicated project updates effectively.

Trainee Engineer - (June 2021 – Aug 2021)

- Assisted in UI development using **AngularJS & React JS** focusing on UI fixes and API integration.
- Collaborated with senior developers in an **Agile environment**
